The Best Guaranty of Merit Is Open Publicity.

Every bottle of Dr. Pierce's worldfamed medicines leaving the great laboratory at Buffalo, N. Y., has printed
upon its wrapper all the ingredients
entering into its composition. This fact
alone places Dr. Pierce's Family Medicines in a class all by themselves. They
cannot be classed with patent or secret
medicines because they are neither. This
is why so many unprejudiced physicians
prescribe them and recommend them to
their patients. They know what they
are composed of, and that the ingredients
are those endorsol by the most eminent
medical authorities.

are composed of, and that the ingrement are those endors. I by the most eminent medical authorities.

The further fact that neither Dr. Pierce's Golden Medical Discovery, the great stomach tonic, liver invigorator, heart regulator and blood purifier, nor his "Favorite Prescription" for weak, overworked, broken-down, nervous women, contains any alcohol, also entities them to a place all by themselves.

Many years ago, Dr. Pierce discovered that chemically pure glycerine, of proper strength, is a better solvent and preservative of the medicinal principles residing in our indigenous, or native, medicinal plants than is alcohol; and, furthermore, that it possesses valuable medicinal properties of its own, being demulcent, nutritive, antiseptic, and a most efficient antiferment.

Neither of the above medicines contains alcohol, or any harmful, habitforming drug, as will be seen from a glance at the formula printed on each bottle wrapper. They are safe to and apotent to cure.

bottle wrapper. They are safe to not and potent to cure.

Not only do physicians prescribe the above, non-secret medicines in goty, but the most intelligent people smalls, team—people who would not think of using the ordinary patent, or secret medicines. Every ingredient entering into the composition of Dr. Pierce's medicines has the strongest kind of the enforsement from leading medical writers of the several schools of practice. No other medicines put up for the purposes has any such professional endorsement.

Dr. Pierce's Pleasant, Fellets cure constipation. Constipation is the cause of many diseases. Cure the cause and you cure the disease. One "Pellet" is a gentle laxative, and two a mild cathartic. Druggists sell them, and nothing is "just as good." Easy to take as candy.

Having written to the Gszette from Switzerland regarding the public-school work in the country districts there, your "foreign correspondent" now offers you a few lines bearing upon the kindergarten and school work in Germany. If the old-world systems have the advantage of us in some points, we surpass them in others, and a student of kindegatren work could not fail to note how far the American kindergarden has advanced in the Gszette from An Old And Well-Tried Remedy.—An Old And Vell-Tried Remedy.—An Old And Ve kindegatren work could not fail to note how far the American kindergarden has advanced, in comparison with the work in that line in Germany. Froebel, the founder of the kindergarten system, was a German, and the kindergarten must be regarded as a German institution; but, as is the case with many of our Germany. American citizens, it is born in Germany, and matured in America.

This is frankly conceded by educators

Make a note now to get Ely's Cream Balm if you are troubled with nasal catarrh, hay fever or cold in the head. It is purifying and soothing to the sensitive membranes that line the air passages. It is made to cure the disease, not to fool the patient by a short, deceptive relief. There is no cocaine nor mercury in it. Do not be talked into taking a substitute for Ely's Cream Balm. All druggists sell it. Price 50c. Mailed by Elv Bros. This is frankly conceded by educators

Germany, and matured in America. This is frankly conceded by educators in this country, and the writer was told by the director of the Munich Seminary, for kindergarteners, that while this system of education has become a philosophy—a science—in America, the standard of the work here, puts it almost on a plane with day—nursery work—an altogher different thing. The fact that this gentleman occupied the position he did, proved his statement, for he was promoted from the public school primary work to the directorship of a kindergarten training school for teachers with—are the second of the work to the directorship of a kindergarten training school for teachers with—are the second of the work to the directorship of a kindergarten training school for teachers with—are the work to the directorship of a kindergarten training school for teachers with—are the work here. moted from the public school primary work to the directorship of a kinder-garten training school for teachers without any special qualification or preparation for the work. He was pleasant, reliable, and thoroughly experinced in elementary teaching; but that is far from kindergarten! Miss Fawcett and her assistants, in Alexandria, are conducting a kindergarten such as is not to be found in this great Germany metropolis. One of the writer's children attended for seven months the first private kindergarten in this city; it was conducted by Bryant Fertilizer Company a baroness—a person by no means dazwas what su Englishman would She have discribed as "a decayed gentle-woman" Her school was open from 8

Was necessary for the baroness to share his imprisonment, during which time pandemonium reigned among the thirty-nine.

It is not customary for any family to enter a child in a kindergarten, if a nursery-maid is kept at home; so the kindergarten is not a place where, unconsciously to itself, the child forms ideas of beauty, habits of thought, and a process of reasoning, but merely a room, warmed and lighted, where a responsible woman receives children for the day and relieves the over-taxed mothers. The elementary principles of religion, of government, of citizenship, of social court'sy, of art, music and architecture, enter largely into the life of a well-conducted American kindergarten.
